PETITION: THREAT TO LIFE BY DOMINIC & JOSHUA MOK.

Good morning Sir,

My name is Francis Mok. I am the Son of The Late Chief Fidelis I Mok. Co-Landlord in his Estate, One of which is located at 12 Tanimowo Street, Off Ishaga Close, Mushin, Lagos. Where I currently reside.

For a while now,there have been issues regarding the unfairness of my inheritance as allocated to me by my brothers (namely Late Emmanuel, Dominic, ifeanyi etc). Although I and emmanuel reached a settlement & agreement, before he passed on, his family & my other siblings, (which include dominic, ifeanyi, pat..his wife & their 3 boys..who recently graduated from the university), have refused to honor the agreement, we reached before he passed-on, by putting it to effect. Even before now, there had always been unnecessary hostility toward me (I have previously tendered a petition against them..regarding threats to my life & unwarranted hostility toward me & will be made available on request). All of which I have sought to manage legally & non-violently. But I observe that at the slightest opportunity, they would gang-up against me, with unnecessary hostility, provocations, lies & threats to my life, etc.

Days ago, on the 9th of September 2024, at about 12noon. I engaged a welder to repair our main gate , which was damaged by wear & tear. On completion of the job, one of my late brothers son, by name joshua was around. So I used the opportunity to call his attention on the need for us to manage things & be gentle, in the ways they handle things in the house, like slamming the gates etc, Highlighting the penthouse, where they stay, without closing the door & which has damaged the plastic-water pipe..due to the wind constantly jamming the door, causing leakages, their cooking with firewood, on the roof of the house, which has burnt the felt used to seal..natural waters like rain from leaking into the roof section of the house etc..in stating this..I called his attention that there is no money & that the initial change of the roof & felting, which was done, not so long ago..was as a result of the family investment, through the rent payed by our tenant.

Immediately, this boy, who is not privy to the details of the family finances, like I am (Francis Mok, his Uncle)..just started shouting, making a scene, insulting me, saying nobody invested anything, that it was his father (the late emmanuel), who did everything, to the extent of threatening to kill me, in my house, saying he will kill me with stones & fire etc..my junior brother john, who was at home witnessed everything, (I also have evidence of it, as a phone discussion with john, as I discussed the matter with him & will be tendered on request).

It was difficult for me to co-relate how an innocent advise to my younger one to be careful, could degenerate to such..acts of violence & threats to my life.This is not the first time such is happening. Just last week, on the 4th of September 2024, Dominic my direct brother, (who currently has a case to answer in your station, but has been running away, refusing to honor police invitations, or return missed calls)..threatened my life, while we were in discussion on phone. Thank God, I have evidence of it..as a recording..& will be tendered on request.

So Sir, Pls I want to call the attention of the police to the constant threats to my life & the unnecessary hostility & provocative situations, im constantly faced with, living among supposed siblings, in my fathers house. As I would not hesitate to defend myself should they try to realize their claims/desire of killing me.

Pls i want undertakens signed, from both dominic & joshua, so should anything happen to me they are to be held responsible. Thank you.

Francis Mok
